NIC 8468

                    ARPA NETWORK MAILING LISTS

The following are three lists to be used for distribution of Network
documents. List A should be used by sites when they distribute their
own documents, to get RFC's to Liaisons as quickly as possible. All
but local mail should be sent Air Mail. Lists B and C will be used
by NIC in making distribution of copies to non-site Network
participants and to Station Agents.

For phone numbers and lists of names by sites see the Current
Directory of Network Participants.

(A)   A.   INITIAL DISTRIBUTION LIST

Note: This list includes all Network Liaisons and others who should
receive initial distribution of RFC's, whether sent from NIC or from
sites. They will also receive selected catalogs and other formal
documents from NIC.
